

Hello, welcome to the **Clague Road Corridor Study outreach survey**! The City of North Olmsted is undertaking a corridor study on Clague Road between Marion Road and Lorain Road, with a focus on traffic congestion, connectivity and safety for all users. The City of North Olmsted plans to resurface the road in 2024 and is taking this opportunity to identify and incorporate improvements to the corridor.

There are so many things that can make a street great, and Clague Road already has a lot going for it. What would make your walk on this road more pleasant? Your bike trip more efficient? What could enhance your perception of safety here? Think about all of the modes of transportation and types of people that use this corridor; your kids walking to school, your elderly neighbor navigating the intersections with a walker, you in your car on the way to work. Are the needs of all users being met on this corridor today?

At this stage, the City of North Olmsted is seeking your ideas for improving Clague Road. Please visit our website and take 5 minutes to review the presentation [video or PDF](#) for the study background before taking the survey; the survey contains 10 questions and takes 5 to 10 minutes to complete.

Return the survey to City Hall at 5200 Dover Center Road, North Olmsted, OH 44070 or scan a copy to lieberk@north-olmsted.com by August 21, 2020. Contact Planning Director Kim Lieber at 440-716-4118 with any questions. Thank you!
