

## Letter From The Commissioner

The North Olmsted Parks and Recreation Department would like to welcome you as a partner in our organization. As you know by now, our facility has recently been renovated to enhance and expand on the growing needs for recreation in our community. Our desire would be to create a long term relationship which would mutually benefit both of our organizations.

The recently completed \$2 million renovation has enhanced our facility greatly. Our new fitness center has the top of the line cardio, Hoist Roc-It machines and free weight equipment. Included in the facelift were two new group exercise rooms which allow for increased programming of fitness classes. Ingress and egress were also increased by creating two separate entrances, one for the rink and one for the fitness center, pool, gymnastics and tennis. Our once small and outdated pool locker rooms have been remodeled floor to ceiling to include more showers and restrooms. If you have yet to see our fantastic changes, we encourage you to come by any time for a tour.

Our facility is not limited to just the new areas, we still house two indoor ice rinks, an indoor and outdoor swimming pool, a comprehensive gymnastics facility and two indoor tennis courts. The Recreation Center continues to serve as a magnet for North Olmsted and its surrounding communities. Our building sees hundreds of visitors each and every day, not to mention the thousands that join us for special events throughout the year.

We invite you to come be a part of the fun and excitement right now!!

Sincerely,  
Betsy Drenski
