Thursday 6:15 - 7:00 PM

Freestyle 1-6

Tuesday 5:45 - 6:30 PM
Thursday 7:00 - 7:45 PM

Frequent Asked Questions

What do I need for class?

Skaters should be dressed warm because the rink is kept at 58°. Students should wear jackets, gloves/mittens and a hat. Beginning skaters should wear snow pants or nylon pants. All tots are required to wear gloves, long pants that are not jeans, hats or helmets. All other students should wear non-restrictive but not overly baggy clothing.

Rental Skates

Skates are the most important piece of equipment for skating. Poor quality skates will make it difficult for a student to be able to skate. Progress happens quicker with quality skates. The North Olmsted Recreation Department has the highest quality rental skates available in the area. If a student is skating less than three times a week it is suggested that the student rent skates. Rental skates are included in your class fee.

Last day of class

Students will then receive their progress books if they do not have one, and badges if they passed the class. Evaluations will be handed out on the last day of class with a recommendation as to which class your skater should take next.

Questions

Your instructor is usually available before or after class to answer any questions that you may have. Miranda Oltmanns is the Learn to Skate Coordinator and Betsy Drenski is the Recreation Commissioner. They are both available to answer skating questions. Please contact us with any questions or concerns.

US Figure Skating Fee

US Figure Skating requires that each Learn to Skate student pay an annual membership fee of \$16. This covers US Figure Skating materials, badges, books and insurance. This fee is effective from July 1, 2020 - June 30, 2021.

Pricing

Resident \$50

Non-Resident \$60

The City of North Olmsted is proud to introduce the new Learn to Skate USA skating program for beginner, intermediate and advanced basic ice skaters of all ages. Learn to Skate USA is the official beginning skating program for US Figure Skating, USA Hockey and US Speed Skating. This program is especially unique to the Greater Cleveland area because not only do we offer innovative instruction that is both informative and motivational, we also include many extras. This includes free use of rental skates, extended lesson time, achievement patches to mark a student's progress and a report card for students to use to monitor their individual progress.

Learn to Skate USA Class Descriptions

Parent and Tot - This is a great family program where skaters and parents learn together the basics of skating. Skaters advance from Parent & Tot to the Snowplow Sam classes. Ages 2.5 – 4 years old.

Snowplow Sam 1-4 – A beginner program is designed to make the skaters more comfortable and in control when they are on the ice. Snowplow Sam 1 introduces skills of marching across the ice, gliding, proper falls and standing techniques. Snowplow Sam 2 introduces swizzles, dips, and stronger forward and backward skating. Snowplow Sam 3 & 4 introduces backward swizzles, snowplow stops, and one-foot gliding. Ages 3 – 6 years old.

Basic 1 - Students learn proper falling and standing skills, forward and backward skating, two-foot glides, hopping, and beginning stops. Children learn to be comfortable on skates and really enjoy the ice. Recommended for figure skating and hockey.

Basic 2 - This class introduces one-foot glides, backward glides, backward swizzles, two-foot turns from forward to backward, and a moving snowplow stop. Recommended for figure skating and hockey.

Basic 3 - This class refines the correct use of the skate blade and includes forward stroking, backward one-foot glides, one-foot pumps, introduction to cross-overs, Recommended for figure skating and hockey.

Basic 4 - This begins the advanced levels of basic skating. Skaters learn how to use both the inside and outside edges of the blade, forward cross-overs both clockwise and counter-clockwise, proper backward stroking, a backward snowplow stop and two-foot spins. Recommended for figure skating and hockey.

Basic 5 - This class begins backward cross-overs in both directions, 3-turns, the hockey stop, backward outside and inside edges on a circle, and a one-foot spin with up to 3 revolutions. Recommended for figure skating and hockey.

Basic 6 - This class includes advanced turns, T-stops, bunny hops, spirals and lunges. Recommended for figure skating and hockey.

Pre-Freestyle and Freestyle – A combination of the skills of Basic 7 and Basic 8. This class will get the skater ready to move into higher level freestyle skills. Step sequences, one foot spins, waltz jumps, half flip and toe loop are covered.

Freestyle 2-6 - For those skaters who want to progress to the advanced levels of figure skating. All of the basic jumps, spins and footwork to become a competitive figure skater are covered while working on the Freestyle 2-6 badges.
